

MINITOR IV
BETTER BY DESIGN

Reliable. Durable. Ready on demand. These are precisely the qualities that fire departments and other emergency-response professionals need in a paging device.

Motorola's upgraded MINITOR IV has all those traits and more. One of the most robust paging devices to date, MINITOR IV's enhanced design delivers improved functionality for even greater dependability. Confidently dispatch your fire and safety personnel with MINITOR IV, and you'll benefit from these outstanding built-in features:

INTRINSICALLY SAFE CERTIFICATION

The MINITOR IV is UL Certified as intrinsically safe for use in hazardous classified locations. The intrinsic safety rating of the MINITOR IV is approved for use: Division 1, Class I, Group C, D, Class II, Group E, F, G.

IMPROVED FUNCTIONALITY FOR BETTER RELIABILITY

Several performance-enhancing features make the MINITOR IV especially durable and user-friendly.

- The redesigned Function Select switch enables users to feel a firm, solid click when toggling between functions
- Redesigned knobs- a sturdier, one-piece construction- are larger and more tapered, making it easier for gloved hands to secure a firm grip
- Rugged housing design adds value to the unit's overall durability.

FIELD PROGRAMMABLE FUNCTION SWITCH ADAPTS TO MOST SITUATIONS

Four separate and customizable functions- scan; monitor; selective call; tone/vibrate- allow users to adapt the device's capabilities to meet changing field based requirements.

2-CHANNEL PRIORITY SCAN

2-Channel MINITOR IV's enable users to scan both channels for pages while giving priority to pages received on channel 1.

MONITOR MODE

MINITOR IV's monitor mode feature permits users to listen to all communication on the selected channel.

MINITOR IV ALSO HAS THESE ADDITIONAL FEATURES.

- Manual reset
- Synthesized receiver
- Field-programmable frequencies and codes
- 4 individual and 2 group codes per channel
- 2 minutes dynamic voice storage
- Tone or vibrate alert
- Speaker/earphone jack
- MIL standard 810 F Procedures II for rain
- 2 AAA batteries NiCd/Alkaline
- User-friendly styling
- Compatible with MINITOR III chargers and accessories
- Ships with standard charger, belt clip and 2 NiCd batteries
